

Blended Cement Type IL

Manufacturer:

Fairborn Cement Company

3250 Linebaugh Road – Xenia, OH 45385

(800) 762-0400 - www.fairborncement.com

Product Description and Basic Uses:

The Fairborn Cement plant produces a blended portland-limestone cement (PLC) which meets the requirements for Type IL cement. Fairborn PLC is formulated with interground limestone not exceeding 15% by weight.

Type IL

Fairborn portland-limestone cement (PLC) is engineered with a higher limestone content to reduce the carbon footprint of concrete, performs similar to Type I,II cement, and is suitable for many of the same applications. Fairborn PLC possesses moderate heat of hydration properties, and when used with supplementary cementitious materials can achieve moderate or high sulfate resistance as determined through ASTM C1012 testing.

Quality:

Fairborn Cement Company is committed to quality and takes pride in the products we manufacturer. We use only high quality raw materials and strict quality control procedures, and are the local leader in quality cement production.

Standards:

Type IL cement meets the standard requirements of ASTM C595 / AASHTO M240, Standard Specification for Blended Hydraulic Cements.

Availability:

Fairborn Type IL portland-limestone cement is available in bulk and bagged quantities through our plant and terminal network, and can be ordered by contacting Fairborn Sales at (800) 762-0400.
